

Cassandra Peterson

Software Engineer • MERN Stack • Sacramento, CA

cpeterson.dev@gmail.com | 402-320-7567 | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

TECHNICAL SKILLS

Languages: JavaScript, SQL, HTML5, CSS3

Full-Stack: React, Node.js, Express, MongoDB, Vite, Context API, TypeScript

APIs & Design: REST APIs, Microsoft Dynamics ERP, Stripe, Shippo, Cloudinary, Resend, Klaviyo, Postman

Databases: MongoDB, PostgreSQL, MySQL, SQL Database Design & Optimization

Cloud & Infrastructure: Google Cloud Platform (GCP), DigitalOcean, Render, Vercel, Cloud Deployments

Development Tools: Git, GitHub, GitHub Actions, Jest

Security: JWT Authentication, OAuth

PROFESSIONAL EXPERIENCE

Software Engineer (Contract) • Sabi Ventures Jan 2026 - Feb 2026

- Created a Chrome wellness extension with a configurable dashboard for break reminders and usage tracking.
- Designed an intuitive interface for managing reminder preferences and monitoring user engagement.
- Strengthened extension reliability by stabilizing background processes and ensuring consistent notification delivery.

Software Engineer • TripleTen Apr 2025 - Jan 2026

- Built 6+ production-ready full-stack applications using React, Node.js, Express, and MongoDB.
- Developed secure RESTful APIs supporting scalable application architecture and reliable backend services.
- Integrated Python-based data processing workflows into full-stack applications.

Full-Stack Developer • Surplus Sales of Nebraska Feb 2023 - Jul 2024

- Improved a SQL database containing 75,000+ product records, increasing data accuracy and consistency across the e-commerce platform.
- Led the integration of the website, SQL database, and Microsoft Dynamics ERP, coordinating development efforts to enable real-time data synchronization.
- Migrated 120,000+ product assets from Linux servers to DigitalOcean cloud infrastructure, supporting the company's website modernization and improving performance.

SELECTED PROJECTS

Auto Service Platform - React, TypeScript, Node.js, Express, MongoDB, JWT, Cloudinary, Resend, Klaviyo

[GitHub](#) | [Demo](#)

- Engineered a full-stack platform for an automotive repair business featuring customer and administrative portals.
- Implemented authentication, appointment scheduling, invoicing, expense tracking, and customer management functionality.
- Configured Cloudinary, Resend, and Klaviyo for media management, transactional email delivery, and marketing automation.

Sparkle Bow Shop - Node.js, Express, React, MongoDB, Stripe API, Shippo API, Jest

[GitHub](#) | [Demo](#)

- Launched a production MERN e-commerce platform supporting secure customer checkout and order management.
- Connected Stripe, Shippo, Zapier, and Wave through REST APIs and automated workflows.
- Implemented backend APIs, secure authentication, payment processing, and deployment workflows to support the e-commerce platform.

BudgetBlox - React, Node.js, Express, MongoDB, Vite, Context API

[GitHub](#) | [Demo](#)

- Collaborated with two software engineering teammates to develop a full-stack budgeting application using React, Node.js, Express, and MongoDB.
- Integrated Python-generated financial models from data science teammates into backend services and user-facing features.
- Translated data science outputs into interactive budgeting insights by collaborating across software engineering and data science teams.

EDUCATION

Software Engineering Certificate • TripleTen Apr 2025 - Jan 2026

Bachelor of Web Design • Miami International University of Art & Design Mar 2020 - Jun 2024

Associate of Arts and Science • Independence University Aug 2016 - Oct 2018
