

Cassandra Peterson

Full-Stack Software Engineer • MERN Stack • Sacramento, CA

cpeterson.dev@gmail.com | 402-320-7567 | [GitHub](#) | [Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack Software Engineer specializing in the MERN stack (React, Node.js, Express, MongoDB). Experienced in building scalable SaaS and e-commerce applications, designing RESTful APIs, and improving large legacy systems through database optimization, system integrations, and performance improvements.

TECHNICAL SKILLS

Languages	JavaScript (ES6+), SQL, HTML5, CSS3
Full-Stack	React, Node.js, Express, MongoDB, Vite, Context API, TypeScript
APIs & Design	RESTful APIs, System Integration, Stripe, Shippo, Dynamics, Cloudinary, Resend, Klaviyo
Databases	MongoDB, PostgreSQL, MySQL, SQL — design & optimization
Auth & Security	JWT, OAuth
Cloud & Deploy	GCP, DigitalOcean, Vercel, Render
Testing & CI/CD	Jest, GitHub Actions
Tools	Git, GitHub, Postman

PROFESSIONAL EXPERIENCE

Software Engineer (Contract) • [Sabi Ventures](#) Jan 2026 – Feb 2026

- Delivered a Chrome wellness extension with a dashboard for configuring break reminders and tracking usage activity.
- Designed a dashboard interface for managing reminder settings and viewing engagement data.
- Improved system reliability by stabilizing background processes and ensuring consistent notification delivery.

Software Engineer • [TripleTen](#) Apr 2025 – Jan 2026

- Shipped 6+ full-stack applications using React, Node.js, and MongoDB with production-ready architecture.
- Engineered RESTful APIs to support application workflows and maintain consistent data flow across services.
- Integrated Python-based data workflows into full-stack applications

Full-Stack Developer • [Surplus Sales of Nebraska](#) Feb 2023 – Jul 2024

- Improved a SQL database containing 75,000+ product records by enhancing data accuracy and consistency.
- Created APIs linking website, database, and Microsoft Dynamics ERP for real-time synchronization.
- Migrated 120,000+ images from Linux servers to DigitalOcean cloud storage to improve system performance.

SELECTED PROJECTS

Sparkle Bow Shop - Node.js, Express, React, MongoDB, Stripe API, Shippo API, Jest | [GitHub \(Front\)](#) | [GitHub \(Back\)](#) | [Demo](#)

- MERN-based e-commerce system supporting product browsing and checkout workflows.
- Shippo shipping integration with Zapier automations connecting Stripe and Wave for order processing.
- REST APIs for product, order, and transaction management with Jest testing for checkout stability.

BudgetBlox - React, Node.js, Express, MongoDB, Vite, Context API | [GitHub](#) | [Demo](#)

- React/Node/MongoDB budgeting application developed with 2 engineering collaborators.
- Python data outputs from data science partners integrated into backend and UI workflows for insights.
- Full-stack feature delivery through iterative development cycles and collaborative reviews.

Auto Service Platform - React, TypeScript, Node.js, Express, MongoDB, JWT, Cloudinary, Resend, Klaviyo | [GitHub](#) | [Demo](#)

- Built a full-stack auto service business platform with customer portal and admin dashboard functionality.
- Developed authentication, scheduling, invoicing, expense, and customer management features.
- Integrated Cloudinary, Resend, and Klaviyo for media uploads, transactional emails, and marketing automation.

EDUCATION

Software Engineering Certificate • [TripleTen](#) Apr 2025 – Jan 2026

Bachelor of Web Design • [Miami International University of Art & Design](#) Mar 2020 – Jun 2024

Associate of Arts and Science • [Independence University](#) Aug 2016 – Oct 2018
